Investment involves risk. Investments discussed in this document may not be suitable for all investors. Investors should make their own investment decisions based upon their own financial goals and financial situation and, if in any doubt, should seek advice from an investment adviser. Past performance is not necessarily a guide to future performance. Investments and the value from them can go down as well as up and investors may not get back the amount originally invested. Where investments are denominated in currencies other than the investor's home currency, the value of those investments, and any income from them, will be affected by movements in exchange rates. This effect may be significant as well as unpredictable. Levels and bases for taxation may change.
